JAN SWITZER, M.A., LPC, CAC III

I am a Licensed Professional Counselor and Certified Addiction Counselor III. I work with a variety of individuals, from adolescents to the mature years. I also work with families and couples.

I graduated with a Bachelor of Science in Health and Human Performance from the University of Houston-Clear Lake, Texas. I also hold a certificate in paralegal studies. I received a Masters Degree in Counseling Psychology from Regis University. I have been in private practice a number of years. My focus lies in a number of areas, including trauma and abuse, grief and loss, addictions, life transitions, marriage issues and domestic violence as well as children's issues.

I enjoy hiking, snowshoeing, knitting (gathering with friends at Knit Knook in Conifer), baking, gardening and meditation.

I have one adult son, 3 adult stepchildren, and 7 grandchildren. My husband is retired and loves to "tinker" with automobiles. We also have 3 West Highland White Terriers (who run the household) and 1 Golden Retriever mix "who guards" the property.

My husband and I have lived in Conifer for more than 12 years and we embrace mountain living.

My office hours at Conifer Medical Center are Tuesdays, Wednesdays and Thursdays from 10:00 a.m. to 8:00 p.m.

If you need an appointment outside these days and hours, I can do a home visit.

Call (303) 493-1401 to set up an appointment with me.

I am on a number of insurance panels including CHP+ and Tricare/Triwest. I do not take Medicaid or Medicare. I am also on EAP panels.

It is my policy that co-pay is due at the time of service. If a client has not met their deductibles for insurance, they will need to pay full fee until they have met their deductible.

Fee for service is \$75/60 minutes. This means that cash clients (no insurance or out of network insurance) will need to pay their fee on the day of their appointment. **I also take most credit cards.**

I also do ADD/ADHD testing for children through adulthood. The fee is \$50 per test.

I do not take sliding scale clients.
